

my name is.... and I'm a senior at

..... School .

I tend to be teamwork-oriented and reliable, as I've never missed a deadline. I'm also proud of my ability to preserve and overcome any challenges as they come up. For example, last year, I was having some trouble with trigonometry. I realized I needed to dedicate more time to the subject, so, I met with a teacher outside the class and set aside two extra hours per day for the subject. Eventually, I ended up with an A in the subject.

At University, I'm planning to either major in English or Journalism. I love reading and writing, so I think both programs are going to be interesting and relevant to my interests.
